Book Review: The Rough Guide to the Future by Jon Turney Tom Lombardo, Ph.D. Center for Future Consciousness Introduction Jon Turney's recently published The Rough Guide to the Future (Rough Guides/ Penguin Books, London, 2010, 366 pages) is an interesting and informative read.

[the rough guide to the future jon turney](#)

The Rough Guide to the Future This was a big project long pondered and then finally attempted – an effort to take stock of the mid-term (21st century) future and all its problems, topped and tailed with some reflection on the history of futures and stuff about more cosmic timescales.

[the rough guide to the future by jon turney review](#)

The Rough Guide to the Future by Jon Turney – review. The worst fear of Austin Williams, an architect and director of the Future Cities Project, is that, "The philosophy of sustainability will entrench the contemporary, accusatory mantra that 'mankind is a problem'". His best hope is that, "Humanity's aspiration for material (as well as social and political) improvement will triumph over restraint."

[the rough guide to the future by jon turney nook book](#)

The Rough Guide to the Future cuts a clear path through the jungle of scientific research and political debate, steering you around the prophets of doom and the utopian visionaries, to take you on a tour of the likeliest possibilities for the rest of this century - and beyond. It covers 50 predictions from the world's leading futurologists and chronicles predictions from the past along with visions of the future.

[the rough guide to the future by jon turney review](#)

The Rough Guide To The Future by Jon Turney – review. The book is a guidebook in the Rough Guide series, with some of the look and feel of WIRED magazine in appearance as well as writing style. I found many things of which I was unaware, especially the heavy reliance on science fiction writers as the inspiration for real scientists.
